

**2020 International Conference
on
Computer Science, Engineering and Applications
(ICCSEA 2020)
IEEE Conference Record #49143**

(March 13 – 14, 2020)

**Organized by
Department of Computer Science & Engineering
GIET University, Gunupur-765022, India**

Special Session Title:

IOT and Machine Learning

Organized by (Names, Affiliation, and Contact information):

Sr. No	Name	Affiliation	Email	Contact
1.	Dr. Atul Gosai	Saurashtra University	amgosai@sauuni.ernet.in	9427236866
2.	Dr. Ravirajsinh S. Vaghela	Gujarat Technological University	Raviraj.vaghela@rbi.edu.in	9429244049

Call for Papers

Theme: IoT and Machine learning is current trendsetter technologies. Internet of things provide interface between computer world and physical world. Both the technologies make enhancement today's small business to big giant Industries. This conference focused on contribution to promote, cultivate, enhance and boost the adoption of IoT and Machine Learning application for the benefit of humanity. This special session provides a platform to the research, academia and industrial technocrats to present their ideas and solutions from various perspectives related to use of machine learning and IoT scenarios.

Topics of interest include, but are not limited to:

- IoT and Machine learning
- IoT and Machine learning's security
- IoT and Machine learning social Impact
- Security concern for IoT and Machine learning
- IoT and 5G Network
- Computing Platform for IoT and ML
- Data acquisition, storage management for IoT
- IoT and Machine Learning enable technology
- Deep Learning and IOT
- IoT, Autonomous systems and Agents
- IoT and NLP

Potential Reviewers (Names, Affiliation and Emails)

Sr. No	Name	Affiliation	Email	Contact
1.	Dr. Paresh Tanna	R. K. University	PARESH.TANNA@rku.ac.in	9724347177
2.	Dr. Shailesh Iyer	Gujarat Technological University	saileshi@rbi.edu.in	8511920027
3.	Dr. Parag Rughani	Gujarat Forensic science University	parag.rughani@gmail.com	9428037750
